160512\_Draft NFB Soil Analytical Results Map.pdf

Good evening Eric,

As requested, please find attached the **DRAFT** soil analytical results map of the **UNVALIDATED** data from the March 2016 soil sampling event at the Niagara Falls Blvd site.

DISCLAIMER: This data table is for informational purposes only. Site decisions should not be made based on this data until the data is validated and finalized.

Please let me know if you have any questions.

Thank you.

**Subject:** Revised: NFB & HTC Schedule and priorities

I apologize guys. I thought I had attached updated calendar (attached) and updated schedule descriptions in last email. Please see revised areas in yellow below

It looks like we will be mobilizing the week of May 23, 2016 for NFB. I am still waiting for official word and verbal but there doesn't seem like any reason for it not to happen. Most of the work will be NFB. So the information I sent out on May 5<sup>th</sup> is fairly accurate with the exception of the HTC radon mitigation installation. We will need to coordinate equipment with Neil Norrell and Rich Wickersty with the equipment pick up. Peter and Ben will be with me in Aberdeen next week. We can schedule pick up of equipment on Monday, May 23<sup>rd</sup> in the AM before our drive up.

Between now and then, we have assessment products that are needed for the proposed removal actions.

- GNBC interior soil sample results figure (Ben)
- GNBC interior utility mark out information from March soil sampling event (Peter and Ben)
- NFB property boundary survey figure (Peter)
- HTC- 5374 Roberts Street floor plans with estimated measurements

\*\*\*Please note: All data documents regardless of draft or final...please put version dates

Please let me know if you have any questions. Thanks

•**□□□□□□□□ Niagara Falls Boulevard Site-Tentative schedule for planning purposes: Awaiting verbal and Task Order**

- o Mobilize at NFB on March 24, 2016 and start Sawdust room build, woods clearing and gamma survey of woods
- Similar assessment strategy to what we performed at Holy Trinity Cemetery
- Ludlum 2241 with 3\*3 probe/Viper ATV
- Data Rams or Dust Tracks
- Radeco
- HPIC
- Skid Steers with attachments for woods clearing
- Will need lumber/nails/etc. to build out Sawdust room.
- o Excavation of soil from GNBC Office/Warehouse Areas
- Possibly start demo of front office on May 25<sup>th</sup> .
- Plan to jackhammer front office concrete flooring on Sunday, May 29<sup>th</sup> .
- Need Clean fill for interior spaces

•**□□□□□□□□ Holy Trinity Cemetery Site-Confirmed plans: Task Order and Funding in place**

- o Proposed dates of walk through with subcontractor is Tuesday, May 24<sup>th</sup> at 12:00 PM.
- o Installation of system tentatively planned for June 6<sup>th</sup>.

o Radon canisters for post installation sampling tentatively planned for June 8<sup>th</sup> drop and June 10<sup>th</sup> pick up.

Regards,

Eric
